Haz Zebbug, Malta

PROFESSIONAL SUMMARY

Junior software developer with practical project experience in web applications, e-commerce workflows and interactive software. Brings experience with C# (Unity 6000) and SQL, alongside JavaScript, React, TypeScript, PHP and Python. Eager to grow within the Microsoft stack and a Dynamics 365 Business Solutions environment, contributing a practical problem-solving mindset, collaborative approach and commitment to learning reliable, maintainable software.

CORE TECHNICAL SKILLS

C# | .NET | T-SQL / SQL Server | JavaScript | TypeScript | React | PHP (MySQL) | Git

Additional technologies: PHP, Python, Raspberry Pi / IoT, JavaScript / React.

Familiar with: ASP.NET fundamentals; Power Platform concepts (from C# background – Unity).

SELECTED PROJECTS

Waga Skill-Stack Hub

Cross-platform e-commerce application built with Ionic, React, TypeScript and Vite, with Capacitor support for native mobile deployment.

https://github.com/Goodluck178/waga-skillstack-hub

Waga Integrated Services Website

Responsive multi-page website for web-development services and tutorial packages, built with HTML, CSS and JavaScript, including client-side form validation.

https://waga.morganugochukwu.com/index.html

Waga Online Shopping Cart System

E-commerce project covering user registration, product catalogues, persistent shopping carts and order processing; demonstrates backend and database fundamentals.

https://waga-online.morganugochukwu.com/waga/

Downhill Dash Game

Interactive downhill racing game with dynamic terrain, obstacles and physics-based slopes.

https://github.com/Goodluck178/downhill-dash
